

Leading Learning through
Action-led Research and Innovation

Applying for a Research Grant

Application form

About your collaboration of schools/partners: please answer all questions

1. Names of Schools/Partners in your proposed collaboration

2. Name and full contact details of the Lead School including email and telephone

3. Name of Headteacher of Lead School and the Research Lead (if not the headteacher)

4. The Title of your Proposed Research (this may be provisional)

5. Please tell us here how you heard about The Laurel Trust Funding

Gaining a clear picture...

In order that we can gain a clearer picture of the research or innovation you are planning please write an outline covering the following points. **Please do not go above 2,000 words.** It may be easier for you to use a mixture of brief descriptive text and bullet points. It would be helpful if you could cover the following points:

6. Tell us about the background/context in which you are conducting your research, the nature of your collaboration and what are the particular reasons that have made you focus your proposed research on this area/this group of children?

7. Please write a brief description of the intended research or innovation and the impact you hope to achieve – most importantly what will be better because of your research?

8. What do you feel are the ethical issues your research may raise?

9. We feel it is important that all research includes professional development to build skills, confidence and sustainability; briefly describe how you would do this?

10. Tell us how you will monitor and evaluate your research, especially the impact you wish to achieve for children, teachers, parents/carers, or the community (depending on the nature of your research)

11. Have you any initial ideas about how you might disseminate your work so that other schools and their children/teachers benefit?

Money Matters

12. It is important that you say how much grant-funding the collaboration of schools is applying for
(please note that whilst we will allow a grant to be used for supply - cover we do not allow the payment of salaries or any kind of expenditure which are part of normal school life)

13. Please give your thoughts about how you might 'match fund' the amount of grant for which you are applying? Your 'match funding' is likely to be in terms of time, people, expertise or resources.

Important Steps

- Go to The Laurel Trust website and submit your on-line application before Friday 18th June 2021.
- Once you have completed your on-line application please go to the Data Protection Page and the Permission to Contact Form and complete and submit both. This is an extremely important step as we cannot process your application or contact you without the completed permission.
- Please post a hard signed copy of the application to:
**Maggie Roger, Consultant Director
The Laurel Trust c/o Stone King LLP
Boundary House
91 Charterhouse Street
London
EC1M 6HR**
- It is important that you keep a copy of your application for future reference.

What Next?

When your application is received it is anonymised and the Trustees' Selection Panel make their judgements and decisions based on how your collaboration meet the criteria set, the quality of your submission and the impact your research or innovation is likely to have.

If the Trustees wish to take your application further you will be invited to a Zoom discussion with a small group of Trustees so that we can gain a fuller picture of your intended research, your partners and the nature of the collaboration and raise any points for clarification.

If your application is successful you will be given a provisional acceptance in July. The final grant award is dependent upon you completing an action plan, time-line and indicative budget in the early part of the Autumn Term. In addition, the Lead School will be asked to sign our Memorandum of Agreement which sets out the terms of our contract with you.
